4. Power and speed adjustment
5. On / Off switch
6. Handle of the device
7. Battery Pack
8. Tube / vacuum connection
9. Suction tube
10. Foldable patella
11. Tube Connection / Rotating Brush
12. Rotating brush
13. Wall bracket

WALL MOUNTING and CHARGING

Fig. 1

Back of the support (1)
Insert the tip of the adapter (2)
in the hole of the loading base.

Fig. 1

Fig. 2

Flip the support (1)
to present it Front face (2)
Secure the base to the wall with two screws (supplied) (3).

Fig. 2

- Unwind the mains lead of the adapter completely.
- Check that the voltage in the country where you are, corresponds to the voltage indicated on the device.

Plug the adapter into a wall outlet.

Place the vacuum cleaner in the charging base (Fig. 3).

Note: The blue light begins flashing to indicate that the unit is charging.

After 4-5 hours, all lights will be on.

Notes: This means that the battery is fully charged.

Charge the device at least 5 hours both first time to preserve the longevity of the battery.

If the vacuum cleaner is not used for a long time, it is still advisable to charge the battery at least once every 6 months.

Press the button above the charging base (1)
to release the unit and start using it.

Before use

1. Connect the tube to the vacuum cleaner

2. Install as desired:
 - a. the electric rotary brush by inserting it with precaution in the other extremity of the tube.

Note: It is possible to connect the rotating brush directly to the device.

- b. Install the 3 in 1 accessory (to vacuum furniture, pillow, recesses etc.) by inserting it carefully Or into the tube, either directly on the suction connection of the device.

USE

Press the on / off switch for 2 seconds to start the vacuum cleaner.

The indicator lights come on.

Press the speed controller, on the back of the unit, to switch to slow or fast speed.

Note: During use, the battery discharges, the 3 charge indicator lights go out one by one.

When the battery is discharged, the last indicator light flashes for 30 to

40

seconds and the machine stops operating.

- Always unplug the power cable from the power supply before performing any maintenance cleaning and accessory fitting.
- Never modify the device.

CLEANING AND MAINTENANCE

Before cleaning, always: switch off the appliance, disconnect the apparatus and let it cool.

Clean the outside of the apparatus with a sponge or slightly wet linen.

Never plunge the apparatus in water or all other liquid!

Do not use abrasive cleaners, gritting, or metal brush or another cutting object.

Remove the tube or accessory from the body of the appliance by pressing the release button.

Detach the tank by pressing the Lock / Unlock button.

Remove the dust cover (1)

Pull on the filter with the small handle (2)

Remove the filter from the tank (3) and clean it

Empty the dust contained in the tank (4) in a bin.

Clean the tank and refit the assembly by working upside down.

CLEANING THE ROTATING BRUSH

If the brush is clogged, by wires or dirt, the suction will be less.

Stop, the device. Detach the rotating brush from the hose and turn it over.

Carefully, use a pair of scissors, or a knife, to remove annoying items such as threads or hair that may have clogged the brush inlet.

If needed, locate the Lock / Unlock button on the rotating brush shaft. (1)

Insert a screwdriver or coin into the latch slot and turn counter clockwise (2) to release the roller.

Lift the latch (3) and remove the brush roller (4)

Clean it.

Return to the original position and close the latch by turning clockwise.

STORAGE

- Ensure the unit is completely cool and dry.
- Do not wrap the cord around the appliance, as this will cause damage.
- Keep the appliance in a cool, dry place and out of reach from children.

GUARANTEE

Before being delivered, all our products are subjected to a rigorous control.

This apparatus is guaranteed 24 months starting from the date of purchase by the consumer.

The documents in proof of guarantee are :

- The invoice and
- The filled and stamped warranty plate (located on side or bottom of the gift box). Without these documents in proof, no free replacement, nor no free repair, can be carried out.

During the warranty period, we deal for free, the defects of the apparatus or the accessories, rising from a defect of materials or manufacture by repair or,

replacement. The services within the framework of the guarantee do not involve any extension of the warranty period and does not give right to a new guarantee! In the event of recourse to the guarantee, bring back the complete apparatus to your retailer, in its original packing, accompanied by the proofs of purchase. The breakage of parts out of glass or plastic is, in all the cases, not warranted. Defects on the accessories or the wearing parts (for example: coils of engines, hooks, drive belts, remote control of replacement, teeth brushes of replacement, webs etc) as well as cleaning, maintenance or it replacement of wearing parts are not guaranteed and are thus to pay! In the event of foreign intervention, the guarantee becomes null and void. After flow of the warranty period, repairs can be carried out, against payment, by a specialized trade or a repair service.

SPECIFICATIONS

UNIT

Power supply 22.2V DC 140W

BRUSH

Power supply 22.2V DC 10W

ADAPTOR Ref: CZH015265050EUWH

Input Power supply 100-240V~ 50/60Hz 0.5A

Output Power 26.5V DC 500mA

Norm Class II

Made in P.R.C

The characteristics can change without prior notice.

This apparatus satisfied EC directives, it was controlled according to all the European current directives, like: electromagnetic compatibility (EMC) and low tension (LVD).

This apparatus was designed and manufactured in respect of the last safety regulations and technical specifications.

ENVIRONMENTAL PROTECTION

(Destruction of batteries)

To remove the battery:

- Open the battery compartment and retrieve the battery or batteries.

The appliance must be disconnected from the supply mains when removing the battery.

- THE BATTERY MUST BE REMOVED BEFORE THE UNIT IS GIVEN TO REBUS.
