TO KNOW YOUR APPLIANCE

Unit overview:

- 1 Glass cover handle
- 2 Power connection base
- 3 Basic unit
- 4 Handles
- 5 Cooking surface
- 6 Glass cover

Temperature sensor:

- 1 Temperature sensor
- 2 Electric plug
- 3 Electric cable

- 4 Temperature regulator
- 5 Control lamp

FIRST USE

- Before first use, remove the unit and all accessories carefully.
- Clean the apparatus according to the instructions in "Cleaning" paragraph.
- Place the machine on a suitable flat, stable surface.

USE

- Unroll the power cord completely.
- Check that the tension in force in the country where you are corresponds to that indicated on the apparatus.
- Connect the apparatus in a correct socket-outlet, (and connected to the ground if the unit is Class I), to avoid any danger.
- Disconnect the power source cable before any operation of cleaning of maintenance and accessories assembly.
- Never modify the appliance in anyway.

Preparing the unit

NOTE : The surface of this device will remain in good condition for a long time if you take some precautions :

- a) Do not use metal objects such as knife, fork, etc.. This could damage the unit.
- b) Use only plastic utensils (heat resistant) to stir or remove ingredients.
- c) Clean the unit only with a soft sponge and washing liquid or use the dishwasher.

1. Connecting the unit:

1. Connect the temperature regulator to the base of the basic unit.
(Make sure that the plug is connected properly.)

- 2 Set the temperature selector switch to heat level "0".
- 3 Connect the apparatus in a correct socket-outlet, (and connected to the ground if the unit is Class I), to avoid any danger.

ATTENTION:

Do not use a multiple outlet strip or extension cable.

Preparing foods:

1. Brush the pan with a little cooking oil.
2. Set the temperature regulator to the required heat level.

The control lamp will light up to signal that the unit is ready for use (ON).

NOTE : It takes ca. 5-10 minutes after the unit is switched on before the control lamp goes out. You can then start cooking the food.

Once cooking is complete, the unit can be kept warm. To do this, set the temperature regulator to the thermostat level.

Using the cover:

Use the glass cover where possible when cooking all food types.

The cover prevents smells from escaping and reduces cooking time.

Note The glass cover has a vent through which hot steam can escape!
Avoid contact with this escaping steam.

The cover can become extremely hot during operation therefore use oven gloves, etc. where possible when removing the cover to avoid burns.

Heating levels	Temperature C°	Food type
1 & 2	ca. 100 C°	Roasted food, meat, etc.
3 & 4	ca. 150- 200C°	Pancakes, scrambled eggs, bacon, etc.
5	ca. 240 C°	Grilled foods, pizza, etc.
Thermostat		Warming function

After use:

Set the temperature regulator to the 0 level
 Pull the plug out of the mains socket!
 Allow the unit to cool down thoroughly before cleaning it.

CLEANING AND MAINTENANCE

Before cleaning, Always : switch off the appliance, disconnect the apparatus and let it cool.

Clean the outside of the apparatus with a sponge or slightly wet linen.

The parts (removable) in contact with food like plate, bowl, forks, Spatula etc. can be washed in hot water with sponge and soft detergent or put in the dishwasher.

Never plunge the apparatus in water or all other liquid !

Do not use abrasive cleaners, gritting, or metal brush or another cutting object.

Cautious measures to be operate the heat plate

The surface of the heat plate is antiglare, so take care as following:

Do not use sharp shovel made of metal. (If the beefsteak should be cut, put the good on another plate then cut.)

Do not use a sharp knife to cut the good on the surface.

Do not put the automatic Temperature regulator on the heat plate.

It is not permitted to contact with the heat plate.

Do not use cleaner, nylon brush or metal brush, The surface of the heat plate would be damaged.

The plate must be cleaned after using with a wet cloth. Good rest or fit on the surface would lead to fire

STORAGE

-Ensure the unit is completely cool and dry.

-Do not wrap the cord around the appliance, as this will cause damage.

-Keep the appliance in a cool, dry place and out of reach from children.

GUARANTEE

Before being delivered, all our products are subjected to a rigorous control.

This apparatus is guaranteed 24 months starting from the date of purchase by the consumer.

The documents in proof of guarantee are :

- The invoice and
- The filled and stamped warranty plate (located on side or bottom of the gift box). Without these documents in proof, no free replacement, nor no free repair, can be carried out.

During the warranty period, we deal for free, the defects of the apparatus or the accessories, rising from a defect of materials or manufacture by repair or, replacement. The services within the framework of the guarantee do not involve any extension of the warranty period and does not give right to a new guarantee ! In the event of recourse to the guarantee, bring back the complete apparatus to your retailer, in its original packing, accompanied by the proofs of purchase.

The breakage of parts out of glass or plastic is, in all the cases, not warranted.

Defects on the accessories or the wearing parts (for example: coils of engines, hooks, drive belts, remote control of replacement, teeth brushes of replacement, webs etc) as well as cleaning, maintenance or it replacement of wearing parts are not guaranteed and are thus to pay !

In the event of foreign intervention, the guarantee becomes null and void.

After flow of the warranty period, repairs can be carried out, against payment, by a specialized trade or a repair service.

SPECIFICATIONS

Power supply	220-240V~ 50-60Hz
Power	1500W
Size TP-3032	30cm and depth 4,3cm
Size TP-3840	38cm and depth 4,3cm
Norm	Class I

Made in P.R.C

The characteristics can change without preliminary preventing

This device complies with EC directives, it was controlled according to all current European directives, applicable such as: electromagnetic compatibility (EMC) and low voltage (LVD).

This device has been designed and manufactured in compliance with the latest regulations and technical requirements for safety.

This unit is equipped with an electrical outlet with earth and must be earthed in an according plug.

Note : In the event of question concerning the earth or electric connection, please consult a qualified personnel.

In the event of short-circuit, earthing reduces the risk of electric shock while making possible the current to be evacuated by the wire of ground.

CAUTION: In order to minimize the risks of electric shock, In the event of breakdown, not to open the case but to call upon a qualified technician for repairs.
