ELEMENTS DESCRIPTION

1. Control panel
2. Safety cover with handle
3. Internal stainless-steel container
4. Electrical connector
5. Filling detector (anti-overflow)
6. Blender knife blades

CONTROL PANEL

DESCRIPTION OF CONTROLS AND FUNCTIONS

"ON / OFF" button

This key is used to start and stop the device by confirming the selected function. In case of error in the choice of function, Press the "On / Off" button for 2 seconds. The device will return to selection mode and it will be possible to choose another function.

"SELECTION" KEY

This key is used to choose a function or a type of soup :

Smooth : Mixed and heated ingredients.

Pieces : Heated ingredients and left in pieces

Compote or jam : Mixed Ingredients to make a Jam or a compote.

Juice or Smoothie : Cold mixed ingredients to make an excellent juice or smoothie. Possible to put ice cubes for a very fresh rendering.

Reheat : Allows you to reheat a liquid or soup without the risk of burning the mixture.

Blender and Cleaning : This button has 2 functions. It allows you to completely mix the ingredients incorporated in the bowl. It is used to clean the bowl by using hot water.

Creamy soup

The "Smooth" program is perfect for delicious soup recipes that require a smooth consistency, such as tomato soup. The program guarantees that the ingredients will be mixed to the right consistency and cooked gently at the right temperature. The program lasts 21 minutes, before the soup is ready to serve and enjoy !

Chunk Soup

The chunk soup program is perfect for rustic soup recipes that require a larger consistency, such as lentil soup. The program guarantees that the ingredients will be heated longer to ensure that large pieces are fully cooked.

The program lasts 28 minutes, before the soup is ready to serve and enjoy !

Note : For this function, there is no mixing process, the mixture will only be heated. It is therefore recommended to cut all the vegetables into small pieces the size of a die.

Jam and Compote

The jam function is perfect for preparing a delicious jam.

The program lasts 18 minutes. The cooking will be perfect to obtain the ideal structure for a delicious jam.

Juices and Smoothies

The "juice" function is ideal for preparing fruit juices, smoothies or milkshakes from fresh ingredients.

The program lasts 2 minutes before your drink is ready to serve.

This function does not heat the ingredients.

Note : Do not put ice cubes in the appliance with this function.

Warm up

The program lasts 20 minutes to warm soup or milk.

Mix / clean

This function allows you to further mix the preparation to the desired consistency.

This program has no predefined duration. Press the On / Off button on the device to stop it.

This function works without heating.

When cleaning, fill with half hot water and run the appliance for several minutes.

Stop the blender and empty the water. Repeat the operation if necessary.

For a more thorough cleaning, take all the necessary precautions not to cut yourself with the knife blade of the blender.

FIRST USE

Before first use, remove the unit and all accessories carefully and paying attention to the sharp accessories.

Clean with soap and water, bowls and all accessories. Rinse and dry thoroughly.

Clean the outside and inside of the machine cabinet with a damp cloth and wipe dry.

USE

Connect the appliance to the mains.

⇒ All icons flash.

Press the "Selection" button to choose a program.

⇒ The icon of the selected program will light up.

Press the On / Off button and the device will start operating.

At the end of the program, the appliance beeps for 1 minute and all the icons flash.

After 60 seconds, the icons will go out and the device will shut down automatically.

CLEANING AND MAINTENANCE

Before cleaning, Always : switch off the appliance, disconnect the apparatus and let it cool.

Clean the outside of the apparatus with a sponge or slightly wet linen.

The parts (removable) in contact with food like plate, bowl, forks, Spatula etc. can be washed in hot water with sponge and soft detergent or put in the dishwasher.

Never plunge the apparatus in water or all other liquid !

Do not use abrasive cleaners, gritting, or metal brush or another cutting object.

If cooked rice sticks to the bottom of the rice bowl fill the rice bowl with warm soapy water and let stand for approximately 10 minutes.

STORAGE

-Do not wrap the cord around the appliance, as this will cause damage.

-Keep the appliance in a cool, dry place and out of reach from children.

GUARANTEE

Before being delivered, all our products are subjected to a rigorous control. This apparatus is guaranteed 24 months starting from the date of purchase of consumer.

The documents in proof of guarantee are :

- The invoice and
- The filled and stamped warranty plate (located on side or bottom of the gift box). Without these documents in proof, no free replacement, nor no free repair, can be carried out.

During the warranty period, we deal for free, the defects of the apparatus or the accessories, rising from a defect of materials or manufacture by repair or, replacement. The services within the framework of the guarantee do not involve any extension of the warranty period and does not give right to a new guarantee ! In the event of recourse to the guarantee, bring back the complete apparatus to your retailer, in its original packing, accompanied by the proofs of purchase.

The breakage of parts out of glass or plastic is, in all the cases, not warranted. Defects on the accessories or the wearing parts (for example: coals of engines, hooks, drive belts, remote control of replacement, teeth brushes of replacement, webs etc) as well as cleaning, maintenance or it replacement of wearing parts are not guaranteed and are thus to pay !

In the event of foreign intervention, the guarantee becomes null and void.

After flow of the warranty period, repairs can be carried out, against payment, by a specialized trade or a repair service.

SPECIFICATIONS

Power supply	220-240V~ 50/60Hz
Power (Motor)	140-160W
Power (Heating)	800-1000W
Norm	Class I

Made in PRC

The characteristics can change without prior notice.

This unit is equipped with an electrical outlet with earth and must be earthed in an according plug.

Note : In the event of question concerning the earth or electric connection, please consult a qualified personnel.

In the event of short-circuit, earthing reduces the risk of electric shock while making possible the current to be evacuated by the wire of ground.

CAUTION: In order to minimize the risks of electric shock, In the event of breakdown, not to open the case but to call upon a qualified technician for repairs.

This device complies with EC directives, it was controlled according to all current European directives, applicable such as: electromagnetic compatibility (EMC) and low voltage (LVD).

This device has been designed and manufactured in compliance with the latest regulations and technical requirements for safety.
