| 1. Locking system | 6. Air release buttons |
| 2. Sealing rubber band (connect with ribbon) | 7. Anti-slip feet |
| 3. Manual suction button | 8. Vacuum chamber |
| 4. Gasket | 9. High temperature tape for sealing |
| 5. Air evacuation during vacuum | 10. Base of the device |
| | 11. Opening upper part of the device |

FUNCTIONS

Mode

Press this key to select the desired vacuum mode. Normal or Soft and the corresponding indicator will light.

Normal mode is good for general foods.

Mild mode is suitable for fragile foods.

Note : Normal mode is the default mode when power is turned on. If the power supply is interrupted, the unit returns to normal mode. (Default mode).

Food adjustment key

This function is to be selected according to the type of dry or wet food. Press this key to select 1. Dried foods 2. Moist foods.

Seal function key (Scellage)

Use this key to seal the bag only. (without vacuum function).

"Vacuum + Seal" function key. (Sous-Vide + Scellage)

Press this button to evacuate air from the bag by vacuuming.

When the defined vacuum level is reached, the bag will be automatically sealed.

Unlock / Stop button

Two functions for this button.

Unlocking

- Press and hold this key for 2 seconds to unlock the device when in standby mode.

Stop

- Press this key to stop the device at any time, even during the working process.

Note: The time interval between two seals must be at least 40 seconds.

METHOD FOR OPERATING VACUUM SEALING

*Notes : Vacuum bags, striped, less than 30 cm wide may be used with this device.
Use good quality vacuum bags to get better sealing result.
In all cases, use striped vacuum bags.*

USE

1. Place the food in a vacuum bag (the opposite side to the opening must be sealed).

*Note : Leave at least 5 cm between
openness and foods for able to seal
the bag.*

2. Open the top cover.

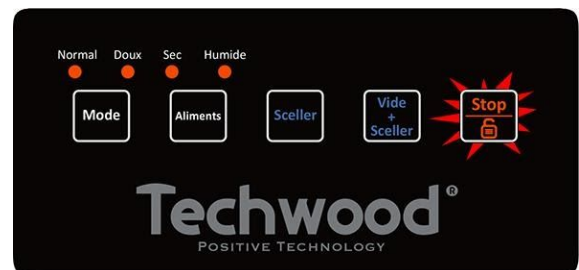

3. Place the bag in the vacuum chamber and ensure that the opening of the bag is flattened.

Note : The opening side of the bag must touch the two vertical pins located inside the vacuum chamber. (see below).

4. Close the top cover and press both sides until you hear a "Click" which ensures that the hood is completely locked to the base.

5. Press and hold the "Unlock" button for 2 seconds until the Unlock button icon turns on.

6. Press the "vacuum + seal" key to start the vacuum operation.

*Notes : The bag will be automatically sealed as soon as vacuum level is reached.
If the device continues to empty air, it is because the device is not hermetic. In this case, press the top cover with your hand to increase the pressure between the 2 parts of the device and make it waterproof.*

7. When the sealing process is complete, the indicator goes off.

8. *Press the 2 Air Release Buttons (6) (located on each side) to unlock the unit and to be able to open the top cover.*
9. *Check the bag to see if the seal is complete, smooth and leak-free.*

Note : Fragile foods such as cookies can not support a degree of high vacuum. It is recommended to use the seal function alone to seal only the bag but not to empty the air inside.

CAUTION

To prevent the seal joint from deforming, do not close the top cover with the locking latch when not in use. This would affect the quality of depression during the next use.

STORAGE

- Ensure the unit is completely cool and dry.
- Do not wrap the cord around the appliance, as this will cause damage.
- Keep the appliance in a cool, dry place.

GUARANTEE

Before being delivered, all our products are subjected to a rigorous control. This apparatus is guaranteed 24 months starting from the date of purchase by the consumer.

The documents in proof of guarantee are :

- The invoice and
 - The filled and stamped warrantee plate (located on side or bottom of the gift box).
- Without these documents in proof, no free replacement, nor no free repair, can be carried out.

During the warranty period, we deal for free, the defects of the apparatus or the accessories, rising from a defect of materials or manufacture by repair or, replacement. The services within the framework of the guarantee do not involve any extension of the warranty period and does not give right to a new guarantee !

In the event of recourse to the guarantee, bring back the complete apparatus to your retailer, in its original packing, accompanied by the proofs of purchase.

The breakage of parts out of glass or plastic is, in all the cases, not warranted.

Defects on the accessories or the wearing parts (for example: coals of engines, hooks, drive belts, remote control of replacement, teeth brushes of replacement, webs etc) as well as cleaning, maintenance or it replacement of wearing parts are not guaranteed and are thus to pay !

In the event of foreign intervention, the guarantee becomes null and void.

After flow of the warranty period, repairs can be carried out, against payment, by a specialized trade or a repair service.

TROUBLE SHOOTING

Problem	Possible cause	Solutions
Unit Cannot vacuum seal	1. Something wrong with the air pump and it cannot work. 2. The vacuum bag is placed on incorrect position. 3. The vacuum bag is not compatible. 4. The sealing sponge get deformed 5. The vacuum bag leaks 6. Something wrong with the heating wire and it cannot heat up	1. Contact with after service to change the air pump. 2. Make sure the bag opening side is placed in the vacuum seal chamber and cannot exceed the two lugs. 3. Replace to compatible bag 4. Press the top cover with your hands when working to check if it can vacuum seal. 5. Replace the bag 6. Contact after service to replace the heating wire

SPECIFICATIONS

Power supply 220-240V~ 50-60Hz
 Power 110W
 Norm Class II

Made in PRC

The characteristics can change without prior notice.

CAUTION: In order to minimize the risks of electric shock, In the event of breakdown, not to open the case but to call upon a qualified technician for repairs.

This apparatus satisfied EC directives, it was controlled according to all the European current directives, like: electromagnetic compatibility (EMC) and low tension (LVD).

This apparatus was designed and manufactured in respect of the last safety regulations and technical specifications.
